# How to upload Dressage and Para Dressage results using FEI Forms

It is possible to upload Dressage and Para Dressage results by manually entering the data in an online results form.

All results will need a corresponding accepted entry in the FEI Entry System, the form requires all marks movement by movement to be entered as well as the Judges.

We strongly advise to use one computer to enter all results for one event. To avoid data loss or other users over-writing any data, please use the same computer to fill in the entire results form for one event.
