How to retrieve past World Rankings on the FEI Database

You would like to view or download an old world ranking?
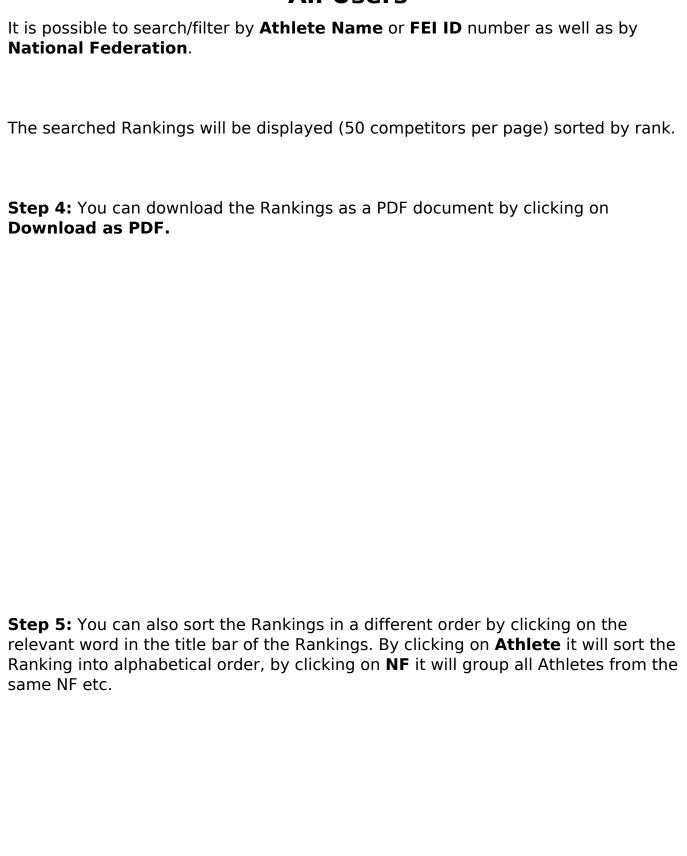

You want to search for a specific Athlete in a world ranking?

Step 1: Go the FEI Database (https://data.fei.org) and navigate to the **FEI Rankings and Standings page**.

Step 2: Choose the discipline and ranking that you wish to view, in this example we will use the Jumping Longines Rankings

Step 3: Using the search feature, you select the **Ranking/Standing Year** from the dropdown menu as well as the **Ranking/Standing Number** you wish to consult, then click on **Search**.

All Users

It is possible to search/filter by **Athlete Name** or **FEI ID** number as well as by **National Federation**.

The searched Rankings will be displayed (50 competitors per page) sorted by rank.

Step 4: You can download the Rankings as a PDF document by clicking on **Download as PDF.**

Step 5: You can also sort the Rankings in a different order by clicking on the relevant word in the title bar of the Rankings. By clicking on **Athlete** it will sort the Ranking into alphabetical order, by clicking on **NF** it will group all Athletes from the same NF etc.

All Users

Please note: Not all historic Rankings have been digitalised and therefore only certain Rankings are available on the FEI Database. If you require a specific past Ranking, please contact: usersupport@fei.org and we will see what is possible.
