How to update a Horse' pedigree on the Horse Detail page

There are two ways to create or update a horse' pedigree on the FEI Database:

1) you can use the suggestion boxes on the Horse's FEI ID page which these guidelines will explain to you

- this is quick and easy to use when you know the SIRE/DAM of the horse and can select the horse from a dropdown list

2) or you can do it via the pedigree page (**View Pedigree Horse**) [click here](#) to view these Guidelines

- this option provides more information on the SIRE/DAM that you are going to add

Step 1: You go to the HORSE DETAIL page to use the suggestion boxes that are on the Horse's FEI ID page.

You can either click on **View Pedigree Horse** to go to the full pedigree page. The red box below shows the suggestion boxes.
