## How to upload XML Results in the FEI Database

You have been appointed as IT Provider at an international Event and you must provide the FEI with the Event results?

You want to use XML format in order to submit the XML results files directly to the FEI web interface?

The FEI TSS department provides XML format for Automated Results Processing that was developed to facilitate data exchange between Organising Committees, National Federations, and the FEI. This results format can be used for any of the 6 FEI disciplines.

You need first to complete the **NDA Form** (Non-disclosure agreement) to get an access to the FEI Database and to upload by yourself XML results files.

You also need XSD files to implement the XML format in your own software on our website. Please find the XSD files for each FEI Disciplines [by clicking here](#).

**Step 1:** You need to log in to the FEI Database <https://data.fei.org/default.aspx> with your FEI ID and your Password. If you do not have an FEI ID, please send an email to [results@fei.org](mailto:results@fei.org).

**Step 2:** To produce XML files with all the data required by the FEI, you will need to retrieve the following information on the FEI Database:

- FEI ID numbers of Shows, Events and Competitions
- Scheduled Competition numbers
- Scheduled Competitions rules
- Venue name and country (NOC code)

**Step 2.1:** Search the Show on the FEI Calendar:

<https://data.fei.org/Calendar/Search.aspx>. On the Calendar Search Page, type the name of the Venue you are looking for and click on **Search** on the bottom right corner.
