## How to retrieve past World Rankings on the FEI Database

You would like to view or download an old world ranking?

You want to search for a specific Athlete in a world ranking?

**Step 1:** Go the FEI Database (<u>https://data.fei.org</u>) and navigate to the <u>FEI</u> <u>Rankings and Standings page</u>.

**Step 2:** Choose the discipline and ranking that you wish to view, in this example we will use the <u>Jumping Longines Rankings</u>

**Step 3:** Using the search feature, you select the **Ranking/Standing Year** from the dropdown menu as well as the **Ranking/Standing Number** you wish to consult, then click on **Search**.

## **All Users**

It is possible to search/filter by **Athlete Name** or **FEI ID** number as well as by **National Federation**.

The searched Rankings will be displayed (50 competitors per page) sorted by rank.

**Step 4:** You can download the Rankings as a PDF document by clicking on **Download as PDF.** 

**Step 5:** You can also sort the Rankings in a different order by clicking on the relevant word in the title bar of the Rankings. By clicking on **Athlete** it will sort the Ranking into alphabetical order, by clicking on **NF** it will group all Athletes from the same NF etc.

## **All Users**

Please note: Not all historic Rankings have been digitalised and therefore only certain Rankings are available on the FEI Database. If you require a specific past Ranking, please contact: <u>usersupport@fei.org</u> and we will see what is possible.
