

Horses

How to create a National Passport

The FEI acknowledges that it is not required, by law, for horses to have national passports in some National Federations.

From 1 January 2017, horses that are registered for the first time on the FEI Database with a FEI registration number only, must have an approved national passport or identification document.

[Click here to see which national passports are approved by the FEI.](#)

In order to help National Federations who do not have national passports, the FEI has created a template.

The template has been designed to:

- be used by all National Federations that do not currently have national equine passports
- meet the requirements for the registration of horses for the first time with the FEI
- be used in conjunction with FEI Recognition Cards. ([What is a FEI Recognition Card?](#))

The template consists of mandatory sections and optional sections. The template also allows you to insert a translation from English to two other languages.

For further information regarding this template or to request a copy please contact: passport@fei.org
